

## ***17.018 Monthly Taxable Sales Report (Report 018)***

The Taxable Sales Report provides a summary comparing the taxable sales of certain business classifications from one month of a given year to the same month of the previous year. "Taxable Sales" is the amount posted to accounting for Sales, Use, Consumer Use and Vending Machine taxes during the given month. The report lists the amount posted, by deposit date, in the month and the percentage of change from one month to the corresponding month of the previous year. The information given on the report is supplied for Virginia counties and cities, five state regional areas, and a summary for the entire state.

The Taxable Sales Report is divided into four sections with a page break between sections.

This report replaces STARS Report Number: TXPBT85. In STARS, you saw the total number of all dealers, regardless of their status. In IRMS, you are only shown the active dealers (inactive dealers are not counted).

### **Purpose and Users**

The report is used by

- TAX Representatives in the Tax's Revenue Forecasting area for revenue forecasting purposes.
- Commissioners of Revenue for business licenses
- Treasurer's for business licenses

### **Frequency**

This report is run monthly.

**17.018.1 Taxable Sales Report Section 1**

Section 1 of the report provides summary information of taxable sales posted to accounting for comparison for **different counties**.

The information in this section is sorted in alphabetical order by all counties. Each county has a separate report page where the rows containing the business classification types are listed.

This section provides a total count and total taxable sales amount of all business classification types for each county.

The illustration below is an example of the Monthly Taxable Sales Report Section 1.
